Important Safety Instructions

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

1. Water and Moisture
   The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a set basement.
2. Ventilation
   The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, rug or similar surface that may block the ventilation openings. The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc. Also, it should not be placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.
3. Heat & Flame
   The unit should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
   No naked flame sources, such as lighted candles, should be placed on the apparatus.
4. Power Source
   The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.
   Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
5. Power Cord Protection
   Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. It is always best to have a clear area from where the cord exits the unit to where it is plugged into an AC outlet.
6. Cleaning
   The unit should be cleaned only as recommended. See the section "Care and Maintenance" of this manual for cleaning instructions.
7. Object and Liquid Entry
   Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product. It shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
8. Attachments
   Do not use attachments that are not recommended by the product manufacturer.
9. Lightning and Power Surge Protection
   Unplug the unit from the wall outlet and disconnect it during these periods of time. This will prevent damage to the product due to lightning and power-line surges.
10. Overloading
    Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire of electric shock.

11. Damage Requiring Service
    This unit should be serviced by qualified service personnel when:
    A.The power supply cord or plug has been damaged.
    B.Objects have fallen into or liquid has been spilled into the enclosure.
    C.The unit has been exposed to rain.
    D.The unit has been dropped or the enclosure damaged.
    E.The unit exhibits a marked change in performance or does not operate normally.
12. Periods of Nonuse
    If the unit is to be left unused for an extended period of time, such as a month or longer, the power cord should be unplugged from the unit to prevent damage or corrosion.
13. Environment
    Attention should be drawn to the environmental aspects of the use of apparatus in moderate climates.
14. Servicing
    The user should not attempt to service the unit beyond those methods described in the user's operating instructions. Service methods not covered in the operating instructions should be referred to qualified service personnel.

Features

Thank you for purchasing this Digital Music Audio System, it incorporates following features :

- Different iPod models Player / Re-charger
- Interchangeable iPod Adaptors
- Audio line-in for connecting other digital audio player
- Built-in 2 High Fidelity Speakers
- Remote Control Operation

iPod, iPod mini, iPod nano,iPod touch,iPod classic and iPod shuffle are trademarks of Apple Computer Inc., registered in the U.S. and other countries.

iPod is not included

Listening to iPod

This model adopts different iPod models. Following steps guide you listening to iPod music.

1.Select and insert the proper adaptor for your iPod model into the docking station first.
Your iPod can now be inserted into the docking port by placing the conmnector on the bottom of the iPod onto connector in the docking bay.

Caution : Please be careful when seating the iPod into the docking to avoid damaging the 30-pin connector on the iPod or in the docking system.

2.Switch the Power On/Off switch to on position , the front Standby LED indicator lights on.
3.Press the Standby ⏻ button once to turn on the unit and the Standby LED indicator turns off.
4.Now most of the iPod controls can be implemented by the remote control unit.
To select iPod menu, press the iPod menu button.
To select item from the iPod menu , press the iPod Menu Up ▲ / Down ▼ button.
To confirm item selection, press the OK button.
To start playback music, press the iPod Play / Pause I▶ button once.
To pause the music , press the iPod Play / Pause I▶ button.
To resume music , press the iPod Play / Pause I▶ button again.
You may press the VOL + / - button to adjust the volume to a desired level.
When a song playback, press and hold the iPod Backward ⏮ / Forward ⏭ button to perform high speed search backward / forward.
To skip to previous or next song, press the iPod Backward ⏮ / Forward ⏭ button.
To perform random playback, press the iPod Random button.
To turn off the iPod, press and hold the iPod Play / Pause I▶button around 3 seconds.

■ To turn off the unit and entering the standby mode, press the Standby ⏻ button and the Standby LED indicator will light on.
■ When the unit is at the standby mode and once the iPod connected to the docking station, the unit recharges the iPod battery.
■ You may switch the Power On / Off switch to Off position to cut off the AC main power, if apply.

Note:
Music from the iPhone can also be played in docking compartment. Once iPhone is placed in docking compartment the iPhone screen will display the following message:

> This accessory is not made to work with iPhone
> Would you like to turn on Airplane Mode to reduce audio interference?
> You will not be able to make or receive calls.
> YES NO

- The above message will disappear from the iPhone screen after few seconds. The iPhone is still able to receive incoming calls while inserted in docking compartment.
- The iPhone music selection can be operated by the remote control.

Listening To An External Audio Source

1. Press the Standby ⏻ button to turn on the unit and the Standby LED indicator turns off.
2. Connect an audio cable with 3.5mm stereo plug from an auxiliary audio device to the AUX jack of the unit.
   Note : Once the stereo plug is inserted into the AUX jack, the unit will switch to auxiliary input mode automatically.
3. Turn on the external auxiliary audio device.
4. The volume can now be controlled through the unit. Operate all other functions on the external device as usual.

Note : Press the Standby ⏻ button to turn off the unit when you finish listening. Don't forget to switch off the power of the external audio device as well.

Care and Maintenance

- Do not subject the unit to excessive force, shock, dust or extreme temperature.
- Do not tamper the internal components of the unit.
- Clean your unit with a damp (never wet) cloth. Solvent or detergent should never be used.
- Avoid leaving your unit in direct sunlight or in hot, humid or dusty places.
- Keep your unit away from heating appliances and sources of electrical noise such as fluorescent lamps or motors.
